## CIVIL ENGINEERING - BS, GEOTECHNICAL ENGINEERING TRACK

### **Program Requirements**

The freshman year is identical for degrees in aerospace engineering, architectural engineering, civil engineering, computer engineering, computer science, data engineering, electrical engineering, electronic systems engineering technology, environmental engineering, industrial distribution, industrial engineering, interdisciplinary engineering, manufacturing and mechanical engineering technology, mechanical engineering, multidisciplinary engineering technology, nuclear engineering, ocean engineering, and petroleum engineering (Note: not all programs listed are offered in Qatar). The freshman year is slightly different for chemical engineering, biomedical engineering and materials science and engineering degrees in that students take CHEM 119 or CHEM 107/CHEM 117 and CHEM 120. Students pursuing degrees in biological and agricultural engineering should refer to the specific curriculum for this major. It is recognized that many students will change the sequence and number of courses taken in any semester. Deviations from the prescribed course sequence, however, should be made with care to ensure that prerequisites for all courses are met.

#### First Year

Fall		Semester Credit Hours
CHEM 107	General Chemistry for Engineering Students <sup>1,4</sup>	3
CHEM 117	General Chemistry for Engineering Students Laboratory <sup>1,4</sup>	1
ENGL 103 or ENGL 104	Introduction to Rhetoric and Composition <sup>1</sup> or Composition and Rhetoric	3
ENGR 102	Engineering Lab I - Computation <sup>1</sup>	2
MATH 151	Engineering Mathematics I 1,2	4
-	urriculum (http://catalog.tamu.edu/ eneral-information/university-core-	3
Spring	Semester Credit Hours	16
ENGR 216/ PHYS 216	Experimental Physics and Engineering Lab II - Mechanics <sup>1</sup>	2
MATH 152	Engineering Mathematics II 1	4
PHYS 206	Newtonian Mechanics for Engineering and Science <sup>1</sup>	3
•	urriculum (http://catalog.tamu.edu/ eneral-information/university-core-	3
Select one of the f	following:	3-4
CHEM 120	Fundamentals of Chemistry II 1,4	

University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/)  $^{3,5}$ 

Semester Credit Hours	15-16
Total Semester Credit Hours	31-32

A grade of C or better is required.

Entering students will be given a math placement exam. Test results will be used in selecting the appropriate starting course which may be at a higher or lower level.

Of the 21 hours shown as University Core Curriculum electives, 3 must be from creative arts (see AREN curriculum for more information), 3 from social and behavioral sciences (see DAEN and IDIS curriculum for more information), 3 from language, philosophy and culture (see CVEN, EVEN and PETE curriculum for more information), 6 from American history and 6 from government/political science. The required 3 hours of international and cultural diversity and 3 hours of cultural discourse may be met by courses satisfying the creative arts, social and behavioral sciences, language, philosophy and culture, and American history requirements if they are also on the approved list of international and cultural diversity (http://catalog.tamu.edu/undergraduate/general-information/degree-information/international-cultural-diversity-requirements/) courses and cultural discourse (http://catalog.tamu.edu/undergraduate/general-information/degree-information/cultural-discourse-requirements/) courses.

<sup>4</sup> BMEN, CHEN and MSEN require 8 hours of fundamentals of chemistry which are satisfied with CHEM 119 or CHEM 107/CHEM 117 and CHEM 120; Students with an interest in BMEN, CHEN and MSEN can take CHEM 120 second semester freshman year. CHEM 120 will substitute for CHEM 107/CHEM 117.

For BS-PETE, allocate 3 hours to core communications course (ENGL 210, COMM 203, COMM 205, or COMM 243) and/or 3 hours to UCC elective. For BS-MEEN, allocate 3 hours to core communications course (ENGL 203, ENGL 210, or COMM 205) and/or 3 hours to UCC elective.

#### Second Year

Fall		Semester Credit Hours
CVEN 207	Introduction to the Civil Engineering Profession	2
CVEN 221	Engineering Mechanics: Statics	3
CVEN 250	Introduction to Graphics and Visualization Applications in Civil Engineering Design	2
ENGR 217/ PHYS 217	Experimental Physics and Engineering Lab III - Electricity and Magnetism	2
MATH 251	Engineering Mathematics III	3
PHYS 207	Electricity and Magnetism for Engineering and Science	3
STAT 211	Principles of Statistics I	3
	Semester Credit Hours	18
Spring		
CVEN 302	Computer Applications in Engineering and Construction	3
CVEN 303	Civil Engineering Measurement	3
CVEN 305	Mechanics of Materials	3

	Total Semester Credit Hours	97
	Semester Credit Hours	15
	curriculum (http://catalog.tamu.edu/ eneral-information/university-core-	3
Technical course		9
PHIL 482	Ethics and Engineering	3
Spring	Semester Credit Hours	16
curriculum/) 3		
	curriculum (http://catalog.tamu.edu/ eneral-information/university-core-	3
Technical course		11
CVEN 424	Civil Engineering Professional Practice	2
Fourth Year Fall	0.115	
	Semester Credit Hours	15
University Core C	curriculum (http://catalog.tamu.edu/ eneral-information/university-core-	3
Technical course	•	12
CVEN 399	Mid-Curriculum Professional Development	0
Spring	Semester Steat Flours	
recrimcal course	Semester Credit Hours	15
Technical course	Engineering Mechanics: Dynamics	3
CVEN 345 CVEN 363	Theory of Structures	3
CVEN 322	Civil Engineering Systems	3
CVEN 306	Materials Engineering for Civil Engineers	3
Third Year Fall	Semester Credit Hours	18
MATH 308	Differential Equations	3
or COMM 205	Technical and Professional Writing or Communication for Technical Professions	3
CVEN 311/ EVEN 311	Fluid Dynamics	3

A total of 35 hours of technical coursework is required. Technical coursework is divided into five categories: breadth courses, design courses, focus courses, a science course, and a capstone design course. The total number of hours between breadth, design, and focus courses must add up to 29 hours. The choice of courses to be taken in each of the five categories depends on the track chosen and must be made in consultation with the student's advisor and/or the Civil and Environmental Engineering Undergraduate Student Services Office to ensure pre- and co-requisites are satisfied. Capstone design courses must include more than one civil engineering context.

All students must take at least two courses in their major that are designated as writing intensive (W). CVEN 207 and CVEN 424 taken at Texas A&M satisfy this requirement. Other CVEN courses may be approved as W courses at a later date. A grade of C or better is required in these courses. A grade of C or better is required in all science, mathematics and engineering courses taken to satisfy degree requirements.

# Total Program Hours 128 Geotechnical Engineering Track Technical Coursework

Technical coursework electives for the BS in Civil Engineering, Geotechnical Engineering Track are composed of breadth courses (15-18 semester credit hours), design courses (6-12 semester credit hours), focus courses (2-5 semester credit hours), a science course (3 semester credit hours), and a capstone design course (3 semester credit hours), as delineated below, for a total of 35 semester credit hours. A substitution for any course in the track must be approved in writing by the Civil and Environmental Engineering Undergraduate Student Services Office.

The following courses satisfy the laboratory course requirement, CVEN 342 or CVEN 343, CVEN 365.
 Only one of the following courses, CVEN 314 or CVEN 315, can be used to meet the focus elective.
 Up to 2 hours of CVEN 485 or CVEN 491 may be used.
